

SEGMENT PROFILE

Coatings and Adhesives

Specialty chemicals for high-performance
coatings and adhesives

Durable, workable and sustainable chemistries for high-performance coatings and adhesives

With a portfolio of unique, high-purity chemistries, Ascend Performance Materials offers unparalleled coating and adhesive performance in high-traffic and harsh environments. Our high-quality amines and solvents make your formulations more durable, workable and sustainable.

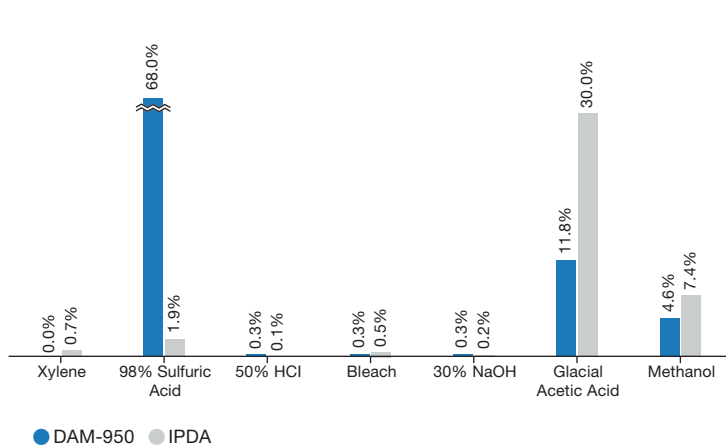

Durability

For high-traffic and harsh environments, our specialty amines produce harder, more chemical and abrasion resistant coatings.

FlexaTram™-DAM

A low-viscosity, cycloaliphatic amine for epoxy

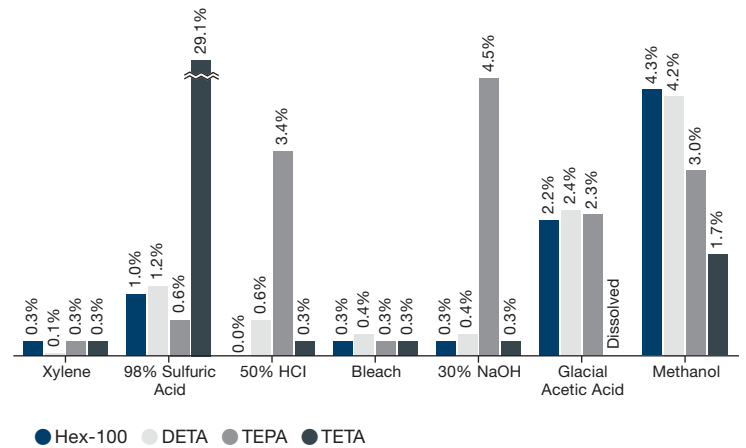

- Excellent mechanical strength and hardness development
- Better chemical and abrasion resistance
- High glass transition for heat and dirt resistance during application

Hexatran™

Trifunctional amine epoxy curing agent

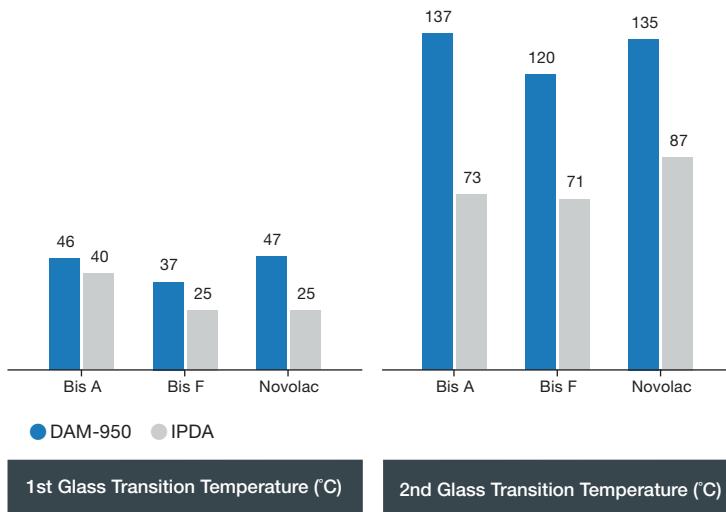

- Unique structure provides increased cross-linking
- Improved chemical and abrasion resistance and hardness
- Exceptional flexibility

Chemical Resistance*

Chemical Resistance*

* Percent weight change after 7 days immersion. The samples were allowed to cure for 7 days before immersion. Each sample was prepared without solvent or plasticizer.

1st Glass Transition Temperature (°C)

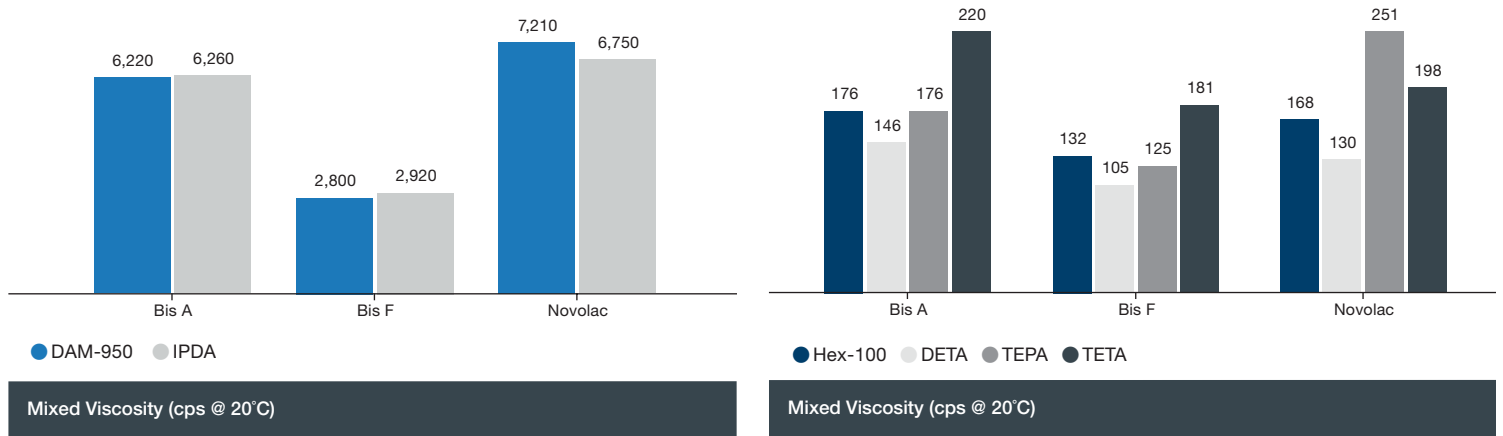

2nd Glass Transition Temperature (°C)

Workability/Return to Service

With fast curing times and low viscosity, our amines make epoxies easy to apply; avoiding costly downtime. For adhesives and coatings, our low-VOC and biodegradable solvents provide greater flexibility in formulation.

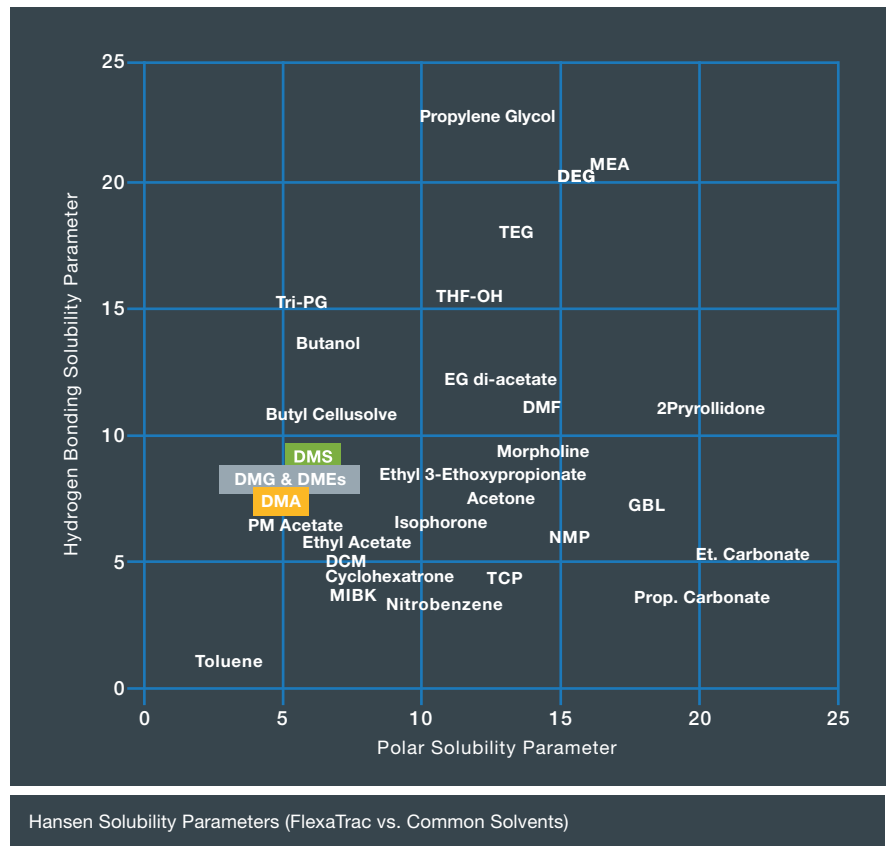

FlexaTram-DAM and Hexatran

- Low viscosity
- Fast curing
- Excellent hardness development

FlexaTrac® Solvents

- Low volatile organic compound content
- Readily biodegradable
- Miscible with most organic solvents

Sustainability

Ascend is committed to sustainability with a goal of reducing our greenhouse gas emissions by 80% by 2030. We are also committed to reducing our waste, improving safety and supporting our communities. You can read more about our sustainability efforts at ascendmaterials.com/sustainability.

About Ascend

Ascend Performance Materials makes high-performance materials for everyday essentials and new technologies. Our focus is on improving quality of life and inspiring a better tomorrow through innovation. We make the plastics, fabrics, fibers and chemicals used to make safer vehicles, cleaner energy, better medical devices, smarter appliances and longer-lasting apparel and consumer goods. We are committed to safety, sustainability and the success of our customers and our communities.
