*Acteev*  
PROTECT™

PA66 fabrics and yarns with  
antimicrobial technology that  
breaks free from the past.

 **ASCEND®**  
PERFORMANCE MATERIALS

**Acteev Protect nylon 6,6 fabrics and yarns set manufacturers and their customers free from the limitations of the past.**

**Acteev Protect guards against the growth of mildew, fungi and other microbes to keep textiles fresher for longer.\* With its odor-free, dyeable and non-silver technology, Acteev is the ideal answer for an active world that wants products that wear better, smell better, retain color better and are better for the environment.**

# Acteev

# PROTECT™

## **FREE FROM ODOR**

Say goodbye to stink for life. With patent-pending Acteev Protect, even the hardest-working apparel stays fresh. And Acteev Protect embedded antimicrobial technology protects against the growth of odor-causing bacteria, so you benefit from extended freshness for textiles that look and smell great.\*

## **FREE TO DESIGN WITH ANY COLOR YOU WANT**

Pastels, solid colors, dark colors — design with any shade you want. There's no need to mix in white. Yarn made with no-odor Acteev works just like regular yarn — only better.

## **FREE FROM SILVER**

Acteev is environmentally friendly — zero silver goes into the water system.

## **FREE FROM POST-FINISHING**

With Acteev, there's no post-finishing step; seamless garments are ready after knitting. Manufacturers save time and money on every piece.

## **FREE TO LAST**

Tests show garments made with Acteev Protect stay protected through 50 washes. Plus, textiles made with nylon 6,6 are more durable, and don't yellow. So products look great longer.

## **FREE TO BE GREEN**

Other products use silver as an antimicrobial, but that metal comes with unwanted environmental consequences. Silver is typically used as a finish or a coating applied using a water-intensive process, and the excess silver has to be disposed of, eventually ending up in our waterways. It uses an active ingredient that is GRAS.

APPLICATIONS

Free to work beautifully with  
any application. **Acteev Protect**  
can be used in virtually any  
garment or textile you need.

## Performancewear

---

Leggings	Yoga apparel
