

Acteev[®]

Natural odor protection for every move you make

Don't let microbes ruin what brings you the most joy. It's time to focus on the activities you want to do, not just the chores you need to do.

- Free from odor
- Free from silver
- Free from harmful additives
- Free from pilling, wear & tear

The natural power of zinc, an essential mineral

Acteev's strength comes from zinc, an essential mineral for human health, and nylon 6,6, known for its softness and durability.

The antimicrobial punch of active zinc ions destroys bacteria that cause unwanted odor, so products made with Acteev yarns, fabrics and nonwovens stay fresh for life.

A permanent safeguard everywhere you go and every way you move

Unlike other antimicrobial treatments, Acteev's zinc ions are embedded into the product instead of coated on.

**Even after 100 washes, it's still just as effective
as the first day.**
