

Acteev[®]

Natural protection in the toughest places

Don't let microbes ruin those present moments in nature. It's time to focus less on what's on you and more on what's in front of you.

The natural power of zinc, an essential mineral

Acteev's strength comes from zinc, an essential mineral for human health, and nylon 6,6, known for its softness and durability. The antimicrobial punch of active zinc ions destroys bacteria and fungi that cause unwanted odor and mildew so your product made with our yarns, fabrics and nowovens stays fresh for life.

Permanent protection for rugged conditions

Unlike other antimicrobial treatments, Acteev's zinc ions are embedded into the matrix of the polymer, not coated on. So not only does our material require less water, it's protected from everything the wild can throw at you.

Even after 100 washes, it's just as effective as the first day.

- Free from odor
- Free from mildew
- Free from silver
- Free from harmful additives
- Free from pilling, wear & tear

Zinc

Nature's elemental safeguard

Essential: A mineral needed for human health

Safe: Better for consumers, the active ingredient on the FDA's GRAS list - Generally Regarded As Safe

Clean: Targets the bacteria and microbes that cause odor, mildew and discoloration

Nylon

Years of peak performance

Feel-good fabric: Soft and gentle on skin

Light and strong: Breathable and durable for regular use

Dry: Fast, moisture-wicking material

Design freedom: Customizable fiber content

Versatile: Available in staple, yarn, fabric, nonwovens, film

Good for you, good for the planet

Backed by decades of science from Ascend Performance Materials, Acteev brings environmentally safe technology to the outdoor gear you rely on. As a member of the UN Global Compact, we are committed to develop, implement and disclose responsible business practices in the areas of human rights, labor, environment and anti-corruption.

Outdoor customers are buying what Acteev is selling

82%

Likely to purchase apparel with no-odor technology

89%

Of no-odor buyers willing to pay a premium

77%

Care about quality
