Acteev[®]
MED

Each year, hundreds of millions of patients are affected by healthcare-acquired infections, leading to significant morbidity and financial loss¹. Now more than ever, we all want to stay protected.

Award-winning nylon with permanent antimicrobial technology

Acteev[®] MED antimicrobial technology has shown high efficacy in reducing the growth of gram-positive and gram negative bacterial strains in independent lab test².

Acteev[®] MED's unique technology embeds active zinc ions into the matrix of a premium nylon polymer. Unlike topical finishes or coatings, the zinc ions do not wash away or flake off, providing long-lasting functionality.

Proven results validated by leading experts

Acteev[®] MED's cutting-edge technology has undergone rigorous testing in independent laboratories, affirming its effectiveness against common microbes. Dermatological tests

have confirmed Acteev[®] MED's materials as gentle and non-irritating to the skin. With over 100 patents, Acteev[®] has earned industry recognition, supported by numerous awards, and experts' contributions through academic posters and speaking engagements on antimicrobial advancements.

Zinc

Nature's elemental safeguard

- Essential mineral for human health
- Proven to soothe skin and used in many skincare products
- The active ingredient is recognized by the FDA as Generally Regarded As Safe
- Naturally deactivates microbes, reducing cross-contamination and odor

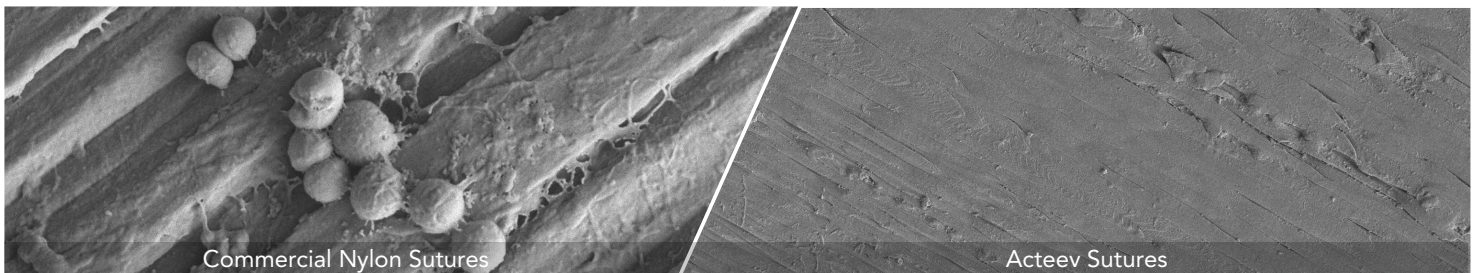

Nylon 6,6

Years of peak performance

- Soft and gentle on skin
- Breathable and comfortable in textiles
- Moisture-wicking and cooling
- Durable and built to last
- Abrasion resistant

Our innovation makes your innovations possible

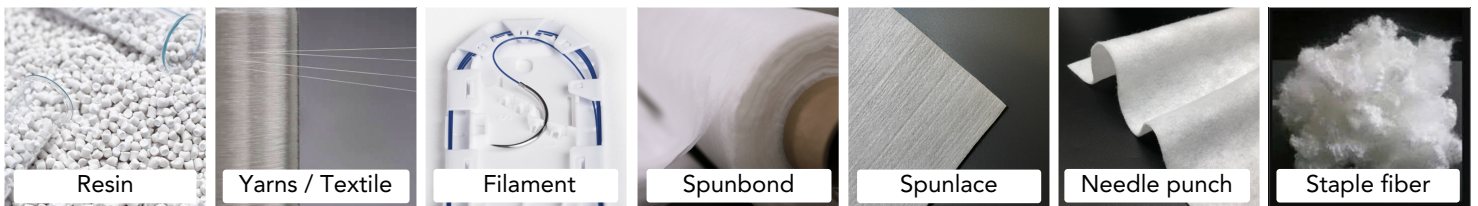

Acteev® MED is the answer to a world demanding products that are clean, safe and durable. We work with customers to drive innovation, from trusted consumer applications to new healthcare technologies. Acteev® technology delivers unparalleled antimicrobial protection, preventing biofilm formation to keep the product fresh and clean for a wide range of applications*

Contact us today

Let our materials and applications experts transform your products with our Acteev® Technology. Not just a one-size-fits-all solution, we tailor our cutting-edge technology to match your unique requirements. With a variety of form factors available, we ensure that your application will reach new heights of effectiveness.

- Patient support and transport
- Wound care (dressing, pads, debridement)
- Wound closures (sutures)
- Medical textile (post-surgical compression)
- Oral care (toothbrush bristle)
- Surgical (catheters)

1 World Health Organization fact sheet

2 Testing conducted on various end forms. Please refer to technical data sheet for data on specific products.

*Acteev's antimicrobial technology is embedded to protect the products. The product does not protect users or others against disease-causing bacteria, viruses, germs or other organisms. This document is for discussion purposes only. Consumer-facing literature and claims need to follow the appropriate regulatory and legal validation and review process.
