

Anti-Static Fiber Technology

LIFE WITH

OUT STATIC

It's not a garment treatment or coating – it's a fiber.
ENDUR fibers deliver permanent functionality in your fabric blends, giving you unparalleled design freedom and a key differentiator from competitors. ENDUR's unique anti-static technology will give your products a new level of exclusivity.

Changing the game in the apparel industry isn't easy. Differentiate your company and its products with ENDUR.

BETTER IN A FIBER

Yoga and Performance Gear

ENDUR's active fibers are functional and comfortable so you balance work and life with ease, throughout the day.

Lounge Wear

With ENDUR fibers, you collect less dust, lint and static as you walk across carpets, rugs and other surfaces.

Medical and Uniforms

ENDUR anti-static fibers keep allergenic debris, dust and other particles to a minimum for professionals working in sterile, highly-oxygenated environments.

ENDUR fibers keep your workers in uniform perfectly pressed, pristine and ready for work.

Evening Wear

When clean and free-flowing appearances are essential, ENDUR fabrics help improve drape and stop cling, to keep you looking your best.

Shape Wear

ENDUR fibers smooth free-flowing materials and provide enhanced layering comfort for shapewear applications. And because it's a fiber, there is no chemical finish – ideal for a next-to-skin application.

Children's Wear

With ENDUR, children's clothes won't pick up lint, dust or shock like other material. It's also safe against skin, ideal for children's wear.
