

ENDUR®

By Ascend

Clean Fiber Technology

It's not a garment treatment or coating - it's a fiber.

ENDUR fibers deliver permanent functionality in your fabric blends, giving you unparalleled design freedom and a key differentiator from competitors. ENDUR's unique anti-static technology will give your products a new level of exclusivity.

Changing the game in the apparel industry isn't easy. Differentiate your company and its products with **ENDUR**.

BETTER IN A FIBER

Hair-repellent

Dust-repellent

Lint-repellent

Cling and static-free

Chemical finish-free

Garments maintain shape & color

TAKE YOUR PRODUCTS TO THE NEXT LEVEL OF CLEAN

ENDUR enhances the quality you want in your clothing and fabrics and repels what you don't. With ENDUR, textiles won't pick up lint, hair, dust or shock like other materials. And because it's a fiber, there is no chemical finish – ideal for next-to-skin application.

Review of clean Window Linchburg Sheer Curtains

Even with an older home that breathes dust, these are the one thing in the room that honestly hasn't developed a dust layer after three months.

- J Rutherford

HEAR WHY CONSUMERS CHOOSE ENDUR

Reviews of Van Heusen No-Iron Traveler Dress Pants

Professional, unwrinkled look without being stiff.

- P

Looks great after laundering.

- Sarah

75 YEARS IMPROVING TEXTILE PERFORMANCE

Performance isn't just in our name, it's part of who we are. Ascend is leading the way in textile technology. We even patented a test method to measure the effectiveness of ENDUR technology and we are OKEO-TEX certified.

FIBER CROSS SECTIONS

DESIGNED WITH YOUR SUSTAINABILITY GOALS IN MIND

As the largest fully integrated producer of nylon 6,6 resin, we have an obligation to move the industry toward a more sustainable future. Our goal is to convert every possible carbon and nitrogen atom into usable products. And as a member of the UN Global Compact, we are committed to develop, implement and disclose responsible business practices in the areas of human rights, labor, environmental and anti-corruption.
