

Greenwood Operations

About Greenwood

Greenwood offers all the benefits of a small town with close proximity to several larger communities. The area offers a mix of southern traditions, nice weather and a friendly community. Lake Greenwood is a great place for boating and relaxation. Weekend shopping trips, the beach or the mountains are only a few hours away.

Community

Ascend takes its responsibility to the communities in which we operate seriously. The people of Ascend have a deep sense of commitment to make a difference in the lives of others. This is visible through their individual efforts and through their participation in events and community leadership.

Employees at the site participate in food drives, wellness events and other events that support the community, such as:

- Habitat for Humanity
- Food Bank and Soup Kitchen of Greenwood
- United Way Sponsor of the United Center
- Annual Law Enforcement Appreciation Outing

Site Information

Production started in 1960.

Site Acreage

1,250

Workforce

480 employees and contractors

Safety and Environmental Certifications

OSHA VPP Star Site

Safety recognition, South Carolina Mfg. Alliance (2013)

ACC RCMS Certificate of Conformance (2015)

Greenwood produces a diverse portfolio of PA66 products based on the monomers made at other Ascend locations, utilizing polymerization and fiber technology expertise throughout the facility. The three production groups in Greenwood manufacture PA66 bulked continuous filament (BCF) fiber for carpet manufacturing customers from a polymerization train using Ascend-produced monomers; industrial fibers (IF) for high-tenacity and technical-fiber applications such as tire yarn and airbag production, starting with Ascend PA66 polymer chip; and PA66 polymer chip for numerous customers who use it to spin or form textile fibers, technical fibers, molded parts, non-wovens, and other end-uses requiring the unique properties of PA66.
