

Better H₂S Scavenging
APPLICATION PROFILE

FLEXATRAM-DAM-120/700

FlexaTram-DAM-120/700 used as partial replacement for MEA in triazine chemistry for superior performance

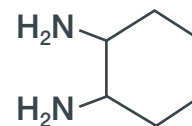

- Enhances performance of H₂S scavenging
- Helps prevent precipitate build up, common in the presence of MEA triazine
- Avoids costly maintenance and equipment shut down

CORROSION PROTECTION MECHANISM

FLEXATRAM-DAM

1,2-dimamocyclohexane

FLEXATRAM-HDA

Hexamethylenediamine
