

FlexaTrac™

DIMETHYL ESTERS & ACID

FlexaTrac™-DME

FlexaTrac-DMEs provide attractive alternatives to other solvents. In the formulation of coatings, cleaning solvents and other products, FlexaTrac-DMEs meet low vapor pressure (LVP) and volatile organic compound (VOC) compliance requirements.

Ascend Performance Materials offers a range of formulated products of acids and dimethyl esters to meet your specific needs.

Ascend's dimethyl esters meet the Organisation for Economic Co-operation and Development's standards for inherent biodegradability.

Ascend is the only in-house U.S. manufacturer of FlexaTrac, allowing us to maintain rigorous consistency and quality control standards.

Formulated products available

- High solvency power
- Low volatility
- Biodegradable
- Low odor
- High flash point

About Ascend

Headquartered in Houston, Texas, Ascend Performance Materials is one of the world's largest fully-integrated producers of nylon 6,6 resin. As the world's only large-scale converter of acrylonitrile to adiponitrile, Ascend is uniquely positioned for the production of dozens of amines, acids, esters and intermediates used in a variety of end applications. Our integrated manufacturing processes allow us to produce a wide range of specialty chemicals. Ascend's specialty chemicals are used in hundreds of brand-name adhesives, coatings, cleansers and detergents. Ascend manufactures chemicals at its facilities in Texas, Alabama and Florida.
